

Business Advisory Council ("BAC")

What ?

The BAC is an independent community-based financial advisory group that exists for the betterment of the Field Local Schools.

Who ?

The BAC is comprised of concerned community stakeholders who are primarily local business owners and professionals connected to the Field Local Schools by virtue of being parents, voters and taxpayers. All members share the conviction that the long-term success of our school is critical to the health of our community.

Why ?

The BAC's mission is to enhance the long-term financial well-being of Field Local Schools through advising and assisting the School's Administration and Board of Education in matters of finance, budgeting and fiscal policy. Although the effectiveness of the BAC depends on close collaboration with the BOE and Administration, the BAC exists independent of their authority, thereby allowing its research to be objective, and its recommendations to be non-binding.
